PHILIP MORRIS U.S.A.

INTEROFFICE CORRESPONDENCE

Richmond, Virginia

To: **Dr. R. Lau** **Date: October 2, 2002**

From: **Jennifer Amador**

Subject: **ETS exposure in the workplace in the US (2001-2002**

In order to locate published information on environmental tobacco smoke in the workplace in the United States, I search the Current Contents database using the following strategy

(Environmental tobacco smoke or ETS) and (occupational exposure or workplace or bar(s) or restaurant(s))\

The search was limited to articles published between 2001 and 2002. I retrieved a total of 57 citations. Upon review, 34 were identified as being non-US studies. Of the remaining 23, I was unable to determine the country of the study from the abstract and so were retained.
A list of these 23 abstracts is attached.

If you need additional assistance, please call me at 4-4854.
